1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-47 are rejected under 35 U.S.C. 102(b) as being antecipated by Rajski et al (Test Data Decompression for Multiple Scan Designs with Boundary Scan).

Rajski et al disclose the invention substantially as claimed, comprising the steps of:

Providing a compressed test pattern of bits;

Decompressing the compressed test pattern into a decompressed test pattern of bits as the compressed test pattern is being provided; and

Applying the decompressed test pattern to scan chains of the circuit under test. (See page 1188, Abstract, and page 1192, col. 2, lines 10-20).

3. Applicant's arguments with respect to claims 1-38 have been considered but are moot in view of the new ground(s) of rejection.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung M.
